

BAHRAIN DEVELOPMENT BANK B.S.C. (c)
Risk and Capital Management Disclosures
For the year ended 31 December 2022

These disclosures have been prepared in accordance with the Public Disclosure Module ("PD"), CBB Rule Book, Volume I for Conventional banks.

These disclosures have been reviewed by the Bank's external auditors Ernst & Young - Middle East, based on agreed-upon procedures as required under Para PD-A.2.4 of the PD Module.

1 EXECUTIVE SUMMARY

This report has been prepared in accordance with Pillar 3 disclosure requirements prescribed by the Central Bank of Bahrain, herein referred to as "CBB". The report has been designed to provide Bahrain Development Bank B.S.C. (c) ("BDB" or the "Bank") and its subsidiaries (together, the "Group"), stakeholders with detailed information on the Bank's approach in managing capital and risk, having due regard to the operating environment.

The Bank applies the Basel framework in the measurement of its capital adequacy, and in its capital management strategy and risk management framework. CBB's Basel III capital rules and guidelines became effective on 1st January 2015 as the common framework for the implementation of the Basel Committee on Banking Supervision's (Basel Committee) Basel III capital adequacy framework for banks incorporated in the Kingdom of Bahrain.

BDB has adopted the Standardized Approach for Credit Risk, Market Risk and the Basic Indicator Approach for Operational Risk to determine the capital requirement.

The disclosures in this report are in addition to the disclosures set out in the interim condensed consolidated financial statements for the period ended 31 December 2022 presented in accordance with the International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

2 INTRODUCTION TO THE BASEL III FRAMEWORK

The CBB's capital adequacy framework is based on three pillars consistent with the Basel III framework developed by the Basel Committee, as follows:

- Pillar 1: calculation of the Risk Weighted Assets (RWAs) and capital requirement.
- Pillar 2: the supervisory review process, including the Internal Capital Adequacy Assessment Process
- Pillar 3: rules for the disclosure of risk management and capital adequacy information.

CBB CAPITAL ADEQUACY RULES:

CBB minimum required total capital adequacy ratio (including CCB) increased from 12 percent to 12.5 percent, compared to 10.5 percent recommended by the Basel Committee. Moreover, the capital conservation buffer is newly introduced limits and minima by Basel III, such as minimum Common Equity Tier 1 Capital Ratio "CET1" of 9 percent (including CCB) and minimum T1 Capital Ratio of 10.5 percent (including CCB).

The table below summarizes the approaches available for calculating RWAs for each risk type in accordance with the CBB's capital adequacy framework:

Credit Risk	Market Risk	Operational Risk
Standardised Approach	Standardised Approach Internal Models Approach	Basic Indicator Approach Standardised Approach

i) Credit Risk

Credit Risk represents the potential financial loss as a consequence of a customer's inability to honour the terms and conditions of a credit facility. Such risk is measured with respect to counterparties for both on-balance sheet assets and off-balance sheet items. The bank has a robust credit risk management architecture which is explained in greater detail in Note 28 of the consolidated financial statements.

2 INTRODUCTION TO THE BASEL III FRAMEWORK (continued)

i) Credit Risk (continued)

The Bank does not use any external credit assessment institutions and the risk rating for the exposures are based on the internal credit framework and policy guidelines of the Bank.

For regulatory reporting purposes, BDB is using the Standardised Approach for credit risk.

ii) Market Risk

Market Risk is the risk of potential losses arising from movements in market prices of financial instruments as a result of changes in market rates (such as interest rates and foreign exchange rates).

For the regulatory market risk capital requirement, BDB is using the Standardised Approach for the calculation of regulatory market risk capital.

iii) Operational Risk

Operational Risk is the risk of monetary loss on account of human error, fraud, systems failures or the failure to record transactions. In order to manage and mitigate such risks, the Bank ensures that proper systems and resources (financial and personnel) are available to support the Bank's operations. Proper segregation of duties and other controls (including reconciliation, monitoring and reporting) are implemented to support the various operations and activities.

For the regulatory operational risk capital requirement, BDB is using the Basic Indicator Approach for the calculation of regulatory operational risk capital.

Regulatory Reforms

The Bank is operating as a retail bank with special waivers under a license issued by the Central Bank of Bahrain ("CBB"), with headquarters and branches in Bahrain. The Bank's capital adequacy requirements are computed on a consolidated basis.

3 GROUP STRUCTURE

The Group's financial statements are prepared and published on a full consolidation basis, with all subsidiaries being consolidated in accordance with IFRS. As at 31st December 2022, the Group consists of the Bank and its following subsidiaries:

Name	Country of Incorporation
Bahrain Business Incubator Centre W.L.L.	Kingdom of Bahrain
Al-Waha Venture Capital Fund Company B.S.C.	Kingdom of Bahrain
Neotech W.L.L.	Kingdom of Bahrain
Middle East Corner Consultancy CO. W.L.L.*	Kingdom of Bahrain

*During the year ended 31 December 2022, the Bank liquidated its ownership in Middle East Corner Consultancy Co. W.L.L.

Restrictions on capital and transfer of funds within the Group

Since the Bank's subsidiaries are not regulated financial institutions, there is no regulatory impediment to the transfer of retained earnings to the Bank. However, as a separate legally incorporated entity, the transfer of paid in capital and mandatory reserves would require shareholder action. As the major shareholder (either direct or indirect) in the entity, the Bank has the power to undertake the legal processes for the transfer of such capital. The Bank's subsidiaries are registered and domiciled in Bahrain and there are no exchange controls or other restrictions on the transfer of funds.

(Expressed in Thousands Bahrain Dinars)

4 CAPITAL STRUCTURE AND CAPITAL ADEQUACY

The Bank's regulatory capital base comprises of (a) CET 1 capital which includes share capital, reserves and retained earnings. (b) Tier 2 capital which consist of general loan loss provisions.

Capital structure, minimum capital and capital adequacy

The Bank's paid up capital consists only of ordinary shares and does not have any other type of capital instruments.

The bank's shareholders are Ministry of Finance and National Economy (89.53%), Social Insurance Organisation (5.23%) and Pension Fund (5.24% each).

The Bank's regulatory capital base is as detailed below:

	As at 31 December 2022
Common Equity Tier 1 (CET1)	
Issued and full paid ordinary shares	63,669
Legal / Statutory reserve	1,186
Accumulated losses	(2,525)
Current period Profit	525

5 CREDIT RISK – PILLAR 3 DISCLOSURES

This section describes BDB's exposure to credit risk, and provides detailed disclosures on credit risk in accordance with the CBB's Basel III framework, in relation to Pillar 3 disclosure requirements.

Definition of exposure classes

The Bank has a diversified funded and unfunded credit exposure. These exposures are classified as standard portfolio per CBB's capital adequacy requirements.

Brief description of applicable standard portfolio is as follows:

a. Claims on sovereigns:

These pertain to exposures to governments and their central banks. Claims on Bahrain and GCC sovereigns are risk weighted at 0%. Claims on all other sovereigns are given a risk weighting of 0% where such claims are denominated and funded in the relevant domestic currency of that sovereign. Claims on sovereigns, other than those mentioned above are risk weighted based on their credit ratings.

b. Investment in securities and sukuk:

Investments in listed equities are risk weighted at 100% while unlisted equities are risk weighted at 150%.

c. Claims on banks:

Claims on banks are risk weighted based on external rating agencies (S&P, Moody's, Fitch and Capital intelligence). Short-term claims on locally incorporated banks are assigned a risk weighting of 20% where such claims on the banks are of an original maturity of three months or less and the claims are denominated and funded in either Bahraini Dinars or US Dollar.

Preferential risk weighting that is one category more favourable than the standard risk weighting is assigned to claims on foreign banks licensed in Bahrain of an original maturity of three months or less denominated and funded in the relevant domestic currency. Such preferential risk weight for short-term claims on banks licensed in other jurisdictions are allowed only if the relevant supervisor also allows this preferential risk weighting to short-term claims on its banks.

No claim on an unrated bank would receive a risk weight lower than that applied to claims on its sovereign of incorporation.

d. Claims on corporates:

Claims on corporates are risk weighted based on credit ratings. Risk weighting for unrated (corporate) claims are assigned at 100%.

e. Impairment of assets:

The Bank assesses at each reporting date whether there is any objective evidence that a specific financial asset is impaired. A financial asset is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'impairment event') and that impairment event (or events) has an impact on the estimated future cash flows of the financial asset that can be reliably estimated. Evidence of impairment may include indications that the borrower is experiencing significant financial difficulty, default or delinquency in interest or principal payments, the probability that it will enter bankruptcy or other financial reorganisation and where observable data indicate that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

f. Restructured financing facilities:

Where possible, the Bank seeks to restructure facilities. This may involve extending the payment arrangements and the agreement of new financing facility conditions. Management continuously reviews renegotiated financing facilities to ensure that all criteria are met and that future payments are likely to occur. The financing facilities continue to be subject to impairment assessment, calculated using the facility's original effective interest rate.

BAHRAIN DEVELOPMENT BANK B.S.C. (c)

Basel III Pillar 3 Disclosures

For the year ended 31 December 2022

(Expressed in Thousands Bahrain Dinars)

5 CREDIT RISK – PILLAR 3 DISCLOSURES (continued)

g. Past due exposures:

This includes claims, for which the repayment is overdue for more than 90 days. The risk weighting for such loans is either 100% or 150% that is applied depending on the level of provisions maintained against the assets.

h. Equity Portfolio:

Investment in securities and financial entities are risk weighted at a minimum risk weight of 100% for listed entities or 150% for unlisted entities, unless such investments exceed 10% of the eligible capital of investee entity, in which case they are deducted from the Bank's capital.

i. Other assets:

These are risk weighted at 100%.

j. Holding of real estate:

All other holdings of real estate by banks (i.e. owned directly, subsidiaries or associate companies or other arrangements such as trusts, funds or REITs) are risk-weighted at 200%. Investment in listed real estate companies and investment in unlisted real estate companies are risk-weighted at 300% and 400% respectively. Premises occupied by the Group are risk-weighted at 100%.

k. Related party transactions and balances:

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. Related parties include entities over which the Bank exercises significant influence, major shareholders, directors and executive management of the Bank. Such related parties in the ordinary course of business at commercial interest and commission rates (Refer note 26 of the consolidated financial statements as at 31 December 2022). All related party transactions are approved by Board of Directors.

Amounts due from related parties are unsecured.

l. Highly leveraged counterparties:

The Bank does not lend to highly leveraged and other high risk counterparties as defined in PD-1-3-24(e).

Restructured Credit Facilities

The Bank has restructured credit facilities amounting to BD 6,481 thousands during the period ended 31 December 2022. Restructuring concessions mainly related to deferral of loan installments to assist customers overcome temporary cash crunch situations or to realign the repayment with the borrower's revised cash flow projections.

The above restructuring did not have a significant impact on the present or future earnings and were primarily extensions of the loan / financing tenor.

BAHRAIN DEVELOPMENT BANK B.S.C. (c)

Basel III Pillar 3 Disclosures

For the year ended 31 December 2022

(Expressed in Thousands Bahrain Dinars)

14 CREDIT RISK MITIGATION

The reduction of the capital requirement attributable to credit risk mitigation is calculated in different ways, depending on the type of credit risk mitigation. The main collaterals taken for risk mitigation on credit exposures are deposits held by customers, residential / commercial property mortgage, investment securities, counter-guarantees from other banks, Tamkeen guarantees etc. However, for purposes of capital adequacy computation, only eligible collateral recognized under Basel III is taken into consideration.

15 ELIGIBLE FINANCIAL COLLATERAL AND GUARANTEES

Eligible financial collateral, and guarantees, presented by standard portfolio are as under:

	Gross credit exposure	Financial collateral	Credit exposure after credit risk mitigant
As at 31 December 2022			
Sovereigns	91,772	-	91,772
Banks	6,727	-	6,727
Corporates	124,782	51,337	73,445
Past due exposures	13,971	10,906	3,065
Investments in equities/funds	6,838	-	6,838
Holding of real estate	6,584	-	6,584
Other assets and cash items	8,683	-	8,683
	<u>259,357</u>	<u>62,243</u>	<u>197,114</u>

Tamkeen guarantees a percentage of the outstanding balance of Islamic financing in accordance with the agreement between the Bank and Tamkeen. Moreover, agriculture and fisheries loans are guaranteed by the Government of Bahrain through Ministry of Finance and National Economy.

Basel III Pillar 3 Disclosures

For the year ended 31 December 2022

(Expressed in Thousands Bahrain Dinars)

17 MARKET RISK, INTEREST RATE GAP

Market risk

Market risk is defined as potential adverse changes in the fair value or future cash flows of a trading position or portfolio of financial instruments resulting from the movement of market variables, such as interest rates, currency rates, equity prices and commodity prices, market indices as well as volatilities and correlations between markets. As its primary tool, the Bank measures its market risk exposure using the Standardised Approach under Basel III.

The Bank uses the Standardised Approach for calculating market risk capital charges for the following market risk components:

- Equity exposure risk
- Interest rate exposure risk
- Foreign currency exposure risk
- Commodity risk

The Bank's market risk capital charge is largely composed of foreign currency risk arising from the Bank's foreign exchange exposure on investments denominated mainly in Kuwaiti dinars, Saudi riyals and USD, and interest rate risk arising on the bond portfolio. The capital requirement for market risk using the Standardised Approach as at 31 December 2022 was as follows:

Risk Type	Capital requirements			
	2022	Maximum	Minimu	Average
Foreign exchange risk capital	50	57	50	52

Interest rate risk

Interest rate risk arises from the possibility that changes in the interest rates will affect future profitability or the fair values of the financial instruments. The Bank is exposed to interest rate risks due to mismatches of interest rate repricing on maturity of assets and liabilities. Positions are monitored periodically to ensure that this is maintained within the established limits. The Bank's assets and liabilities reprice only on maturity.

The Bank's interest rate sensitivity position is based on the maturity dates, as follows:

	Up to 1 month	1 to 3 months	3 to 6 months	6 months to 1 year	1 to 5 years	Over 5 years	Non-interest bearing	Total

21 OPERATIONAL AND LEGAL RISKS

Operational risk is the risk of loss arising from errors that can be made in instructing payments or settling transactions, breakdown in technology and internal control systems. The Bank uses the Basic Indicator Approach under the capital adequacy framework for measuring and managing its operational risk. Currently, the Bank conducts its business from a single location. BDB is a retail bank with some restrictions and accordingly, the number of client relationships and volume of transactions at BDB are moderate on average.

BDB's operations are conducted according to well-defined procedures. These procedures include a comprehensive system of internal controls, including segregation of duties and other internal checks, which are designed to prevent either inadvertent staff errors or malfeasance prior to the release of a transaction. The Bank also engages in subsequent monitoring of accounting records, daily reconciliation of cash and securities accounts and other checks to enable it detect any erroneous or improper transactions which may have occurred. Specific limits are set up to mitigate and monitor the Bank's exposure.

Operational risk is managed by the Operational risk management unit in the Risk management department. The scope of the Internal Audit department encompasses audits and reviews of all business units, support services and branches. The internal audit process focuses primarily on assessing risks and controls and ensuring compliance with established policies, procedures and delegated authorities. Products and services are reviewed by the Internal Audit department and assessed for operational risks. The Internal Audit department is operationally independent and reports significant internal control deficiencies to the Audit Committee.

The Bank has a Business Continuity Plan (BCP) to ensure that the critical activities are supported in case of an emergency. The BCP is approved by the Board of Directors.

Bank's ICAAP limit of 16% has been fixed to absorb any unforeseen event as compared to regulatory capital requirement of 12.5%.

Legal risk is the risk arising from the potential that unenforceable contracts, lawsuits or adverse judgments can disrupt or otherwise negatively affect the operations of the group. The Group has developed controls and procedures to identify legal risks and believes that losses will not be material.

Total liabilities and equity	229,978	232,632	

Step 3: Composition of Capital Common Template as at 31 December 2022

Composition of Capital and mapping to regulatory reports		Component of regulatory capital	Source based on reference numbers / letters of the balance sheet under the regulatory scope of consolidation from step 2
Common Equity Tier 1 capital: instruments and reserves			
1	Directly issued qualifying common share capital (and equivalent for non-joint stock companies) plus related stock surplus	63,669	C
2	Accumulated losses	(2,000)	D
3	Accumulated other comprehensive income (and other reserves)	881	
4	Not Applicable	-	
5	Common share capital issued by subsidiaries and held by third parties (amount allowed in group CET1)	-	
6	Common Equity Tier 1 capital before regulatory adjustments	62,550	
Common Equity Tier 1 capital: regulatory adjustments			
7	Prudential valuation adjustments	-	
8	Goodwill (net of related tax liability)	-	
9	Other intangibles other than mortgage-servicing rights (net of related tax liability)	1,547	
10	Deferred tax assets that rely on future profitability excluding those arising from temporary differences (net of related tax liability)	-	
11	Cash-flow hedge reserve	-	
12	Shortfall of provisions to expected losses	-	
13	Securitisation gain on sale (as set out in paragraph 562 of Basel II framework)	-	
14	Not applicable.	-	
15	Defined-benefit pension fund net assets	-	
16	Investments in own shares (if not already netted off paid-in capital on reported balance sheet)	-	
17	Reciprocal cross-holdings in common equity	-	
18	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank does not own more than 10% of the issued share capital (amount above 10% threshold)	-	
19	Significant investments in the common stock of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions (amount above 10% threshold)	-	
20	Mortgage servicing rights (amount above 10% threshold)	-	
21	Deferred tax assets arising from temporary differences (amount above 10% threshold, net of related tax liability)	-	
22	Amount exceeding the 15% threshold	-	
23	of which: significant investments in the common stock of financials	-	
24	of which: mortgage servicing rights	-	
25	of which: deferred tax assets arising from temporary differences	-	
26	National specific regulatory adjustments	-	
	REGULATORY ADJUSTMENTS APPLIED TO COMMON EQUITY TIER 1 IN RESPECT OF AMOUNTS SUBJECT TO PRE-2015 TREATMENT	-	
27	Regulatory adjustments applied to Common Equity Tier 1 due to insufficient Additional Tier 1 and Tier 2 to cover deductions	-	
28	Total regulatory adjustments to Common equity Tier 1	-	
29	Common Equity Tier 1 capital (CET1)	61,003	
Additional Tier 1 capital: instruments			
30	Directly issued qualifying Additional Tier 1 instruments plus related stock surplus	-	
31	of which: classified as equity under applicable accounting standards	-	
32	of which: classified as liabilities under applicable accounting standards	-	
33	Directly issued capital instruments subject to phase out from Additional Tier 1	-	
34	Additional Tier 1 instruments (and CET1 instruments not included in row 5) issued by subsidiaries and held by third parties (amount allowed in group AT1)	-	
35	of which: instruments issued by subsidiaries subject to phase out	-	
36	Additional Tier 1 capital before regulatory adjustments	-	
Additional Tier 1 capital: regulatory adjustments			
37	Investments in own Additional Tier 1 instruments	-	
38	Reciprocal cross-holdings in Additional Tier 1 instruments	-	
39	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank does not own more than 10% of the issued common share capital of the entity (amount above 10% threshold)	-	
40	Significant investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation (net of eligible short positions)	-	
41	National specific regulatory adjustments	-	
	REGULATORY ADJUSTMENTS APPLIED TO ADDITIONAL TIER 1 IN RESPECT OF AMOUNTS SUBJECT TO PRE-2015 TREATMENT	-	
42	Regulatory adjustments applied to Additional Tier 1 due to insufficient Tier 2 to cover deductions	-	
43	Total regulatory adjustments to Additional Tier 1 capital	-	
44	Additional Tier 1 capital (AT1)	-	
45	Tier 1 capital (T1 = CET1 + AT1)	61,003	

Step 3: Composition of Capital Common Template as at 31 December 2022

	Composition of Capital and mapping to regulatory reports	Component of regulatory capital	Source based on reference numbers / letters of the balance sheet under the regulatory scope of consolidation from step 2
	Tier 2 capital: instruments and provisions		
46	Directly issued qualifying Tier 2 instruments plus related stock surplus	-	
47	Directly issued capital instruments subject to phase out from Tier 2	-	
48	Tier 2 instruments (and CET1 and AT1 instruments not included in rows 5 or 34) issued by subsidiaries and held by third parties (amount allowed in group Tier 2)	-	
49	of which: instruments issued by subsidiaries subject to phase out	-	
50	Provisions	883	
	Tier 2 capital before regulatory adjustments	883	
	Tier 2 capital: regulatory adjustments		
52	Investments in own Tier 2 instruments	-	
53	Reciprocal cross-holdings in Tier 2 instruments	-	
54	Investments in the capital of banking, financial and insurance entities that are outside the scope of regulatory consolidation, net of eligible short positions, where the bank does not own more than 10% of the issued common share capital of the entity (amount above the 10% threshold)	-	
55	Significant investments in the capital banking, financial and insurance entities that are outside the scope of regulatory consolidation (net of eligible short positions)	-	
56	National specific regulatory adjustments	-	
	REGULATORY ADJUSTMENTS APPLIED TO TIER 2 IN RESPECT OF AMOUNTS SUBJECT TO PRE-2015 TREATMENT	-	
	OF WHICH: [INSERT NAME OF ADJUSTMENT]	-	
	OF WHICH: ...	-	
57	Total regulatory adjustments to Tier 2 capital	-	
58	Tier 2 capital (T2)	883	
59	Total capital (TC = T1 + T2)	61,886	
	RISK WEIGHTED ASSETS IN RESPECT OF AMOUNTS SUBJECT TO PRE-2015 TREATMENT		
60	Total risk weighted assets	87,830	
	Capital ratios		
61	Common Equity Tier 1 (as a percentage of risk weighted assets)	69.46%	
62	Tier 1 (as a percentage of risk weighted assets)	69.46%	
63	Total capital (as a percentage of risk weighted assets)	70.46%	
64	Institution specific buffer requirement (minimum CET1 requirement plus capital conservation buffer plus countercyclical buffer requirements plus D-SIB buffer requirement expressed as a percentage of risk weighted assets)	9.00%	
65	of which: capital conservation buffer requirement	2.50%	
66	of which: bank specific countercyclical buffer requirement (N/A)	0.00%	
67	of which: D-SIB buffer requirement (N/A)	0.00%	
68	Common Equity Tier 1 available to meet buffers (as a percentage of risk weighted assets)	69.46%	
	National minima including CCB (if different from Basel 3)		
69	CBB Common Equity Tier 1 minimum ratio	9.00%	
70	CBB Tier 1 minimum ratio	11.00%
